Discussion of Results

Test Weight

Lab D submitted outliers for sample 1 and 2 and produced a very high difference of 2.99. Labs A and C also submitted results with average at least 1.00. Lab E was the best performer this round producing an average difference of 0.09.

Impurities

Lab H produced an outlier 0.35 for sample 1 for the second consecutive round. Labs N also submitted outliers for sample 1 and 2 and generated the highest absolute difference of 1.26. Lab C is one of the best performers achieving the lowest absolute differences for the consecutive rounds.

Oil Rapid

Lab D submitted a significantly low result of -3.52% and generated a high average absolute difference of at least 1.4. Lab A produced an outlier for sample no 1 for Oil Rapid for the consecutive rounds. The other two labs generated a high average absolute difference of at least 1.4.

Oil Solvent

Lab G produced an outlier for all three samples, generating a very high average absolute difference of 3.75. Note that results produced by Lab G for the other two samples also contained outliers.
