Note:

1. **{0.01}** An MRL listed in red text and enclosed in brackets indicates the MRL is more restrictive than
2. Import Tolerance indicates that the MRL has been set by for imported products only. The MRL does not apply for domestically produced products, and there is not a domestic registered use.
3. Exempt indicates that an MRL or tolerance is not required for the pesticide active ingredient in accordance with good agricultural practice on agricultural products.
4. Default indicates that the MRL value displayed is a default tolerance. Applies to those chemicals not
